

2022 Baby Summer Reading Ages 0-2

Childs Name: _____

Talking with your child helps them learn oral language. Talk to them about your daily activities & different events to expand their vocabulary.

Singing with your child slows language down so children can hear the different sounds in words. Singing also develops listening and memory skills.

Reading together is the single most effective way to help children become proficient readers.

Writing and reading go together. Writing helps children learn that letters and words stand for sounds and that print has meaning.

Playing is one of the primary ways young children learn about how the world works, and helps them practice putting their thoughts into words.

Step 1: Complete all game board activities with your child.

- 2. Bring your completed game board into the library by Saturday 8/6 for a board book!**
- 3. By completing the game board, you are automatically entered into our prize drawing!**
